THE NETHERLANDS

OPHTHALMIC PHOTOGRAPHERS' SOCIETY (USA) - AUSTRALIAN INSTITUTE OF MEDICAL & BIOLOGICAL ILLUSTRATION (AUS)
OPHTHALMIC IMAGING ASSOCIATION (UK) - OOGHEELKUNDIGE FOTOGRAFIE NEDERLAND (NL)

Invitation ICOP 2023 – Rotterdam

On behalf of the Organising Committee of ICOP2023 it is our pleasure to invite your company to participate and to welcome your sponsorship of this exciting international meeting. We hope you will take full advantage of the opportunity to promote your products to the delegates of ICOP2023.

ICOP, the International Conference on Ophthalmic Photography, will take place April 14-16, 2023 and is hosted by The Rotterdam Eye Hospital and the Dutch Ophthalmic Photographers Society, in the beautiful city of Rotterdam, The Netherlands! Held every 4 years and attended by the foremost ophthalmic photographers and imagers from the UK, US, Japan and Australasia, the conference incorporates a strong scientific program, guest speakers, trade display, professional exhibition and social activities. The long-established tradition of ophthalmic imagers, photographers and ophthalmologists from around the globe coming together to share their expertise, exchange ideas, and build a community at the ICOP educational programs is continuing in this exciting meeting!

ICOP2023 is intended for anyone who is involved with ophthalmic imaging: photographers, medical imagers, optometrists, orthoptists, nurses, technicians, ophthalmologists and clinicians. Presentations will cover the broad area of technology and pathology, and the intersection between these two.

ICOP2023 will take place at the S.S. Rotterdam, an antique cruise ship docked at the harbour, promising three full days of lectures and scientific papers presented by international speakers from Indonesia, the United States, the United Kingdom, Israel, Australia, Singapore, The Netherlands and many more. A visit to the Rotterdam Eye Hospital is of course included!

ICOP - a partnership of four imaging societies

ICOP is a partnership of four imaging societies: the Ophthalmic Photographers' Society (US), the Ophthalmic Imaging Association (UK), the Australian Institute of Medical & Biological Illustration (AU) and the Dutch Ophthalmic Photographers Society (NL). So ICOP2023 will be THE place to be to meet your peers from all over the globe and share knowledge and experience!

Event website: www.icop2023.org

Sponsorship and Trade Exhibition details are outlined in the attached schedule. Sponsorship contributions are categorised into 4 different levels, Bronze, Silver, Gold and Platinum, with corresponding benefit levels to sponsors.
